

DHRUVIN VAGHASIYA

BACKEND DEVELOPER

Profile

As a Node.js developer with 1 year of experience, I have worked with popular frameworks like Express.js, Fastify, NestJS and utilized MongoDB & PostgreSQL as my preferred database. In addition, I have a basic understanding of React.js and Angular, I am eager to learn more about it, as well as Next.js. I am also interested in expanding my skill set to include microservices, GraphQL. With a strong attention to detail and a passion for clean, efficient code, I am confident in my ability to deliver high-quality solutions that meet the needs of any project.

I am totally aware of my role as a backend developer and I am committed to provide the best work and learn/improve skills while sharing the knowledge with other team members.
